MAETEC POWER AWARDED \$17.5M CONTRACT WITH THE FEDERAL AVIATION ADMINISTRATION (FAA)

FAIRPORT, NY - Last week the Federal Aviation Administration (FAA) awarded a maximum value \$17.5 million contract to MaeTec Power Inc. of Fairport, NY, a DC power services company. Under the contract, MaeTec Power Inc. will provide the FAA with Air Route Traffic Control Center Critical/Essential Power System Battery Replacement for 25 facilities located within the contiguous United States and Alaska. The batteries will support 111 Uninterruptible Power Supplies/Uninterruptible Power Modules. The 5-year contract consists of one 1-year base period and four 1-year option periods.

"Technical and project management considerations were a very important component of this bid, so this is a testament to the quality of service we are able to offer the FAA and all of our customers", said Mark Miller, president of MaeTec Power, Inc.

MaeTec Power, Inc. has completed projects in over 150 cities and 40 states in 2009 and is well positioned to support the geographical needs of the contract.

MaeTec Power Inc. operates throughout the United States and Canada, offering a wide variety of DC power services, including power upgrades and design, battery installation, grounding, and UPS.
